

To whom it may concern:

I understand that Compassionate
Companions at Home
is interested in obtaining
referrals for ^{from your} hospital home
health care.

I would highly recommend
~~from~~ the use of their
services. They were extremely
helpful to me when in an
emergency, I needed a home
health giver.

The circumstances were that a
relief worker was due on
Saturday to take over ~~at~~
for the regular worker.
This was a worker from

other place *Compassionate*
 Care. The relief worker did not
 show up, did not call and
 never reported in ~~to~~ ~~the~~ attempted
 to contact the agency, but
 all they had was an answering
 machine with no forwarding
 of the message. They never
 replied until Monday morning.

We then checked the telephone
 book, and the only agency
 who actually answered the
 telephone was *Compassionate*
Center. Mona, the owner, said
 that she could provide
 service and by 3 P.M. that
 afternoon we had an excellent
 worker.

we have continued to use
her services and have found
~~the~~ she offers excellent
care, and takes a personal
interest in ~~the~~ her clients.

Again, as I said, & highly
recommend
Companions at Home.
Compassionate care.

Sincerely

Mary E Waters
